# Renée Ocaña

Senior Product Designer · Visual Designer

SaaS, B2B · Espoo, Finland · Remote, Europe-based

renee830.github.io · linkedin.com/in/renee-ocana · renee.oflo@proton.me

11+ years of experience in digital design, including 6+ years specializing in UX/UI for complex digital products, SaaS & B2B platforms. **Experienced in designing efficient workflows and intuitive tools.** I work in Figma and code in parallel with AI-assisted design. I'm comfortable working and communicating directly with different stakeholders.

## Skills

**PRODUCT DESIGN**

Full scope of design. High-fidelity prototypes and UI, data-dense interfaces, user flows and user research. Usability testing, motion, accessibility

**DESIGN-TO-CODE & AI**

Figma MCP, Claude Design/Code, Framer, HTML|CSS, CSS variables, JavaScript, GitHub, VS code

**DESIGN SYSTEMS**

Tokens, component libraries, documentation, adoption, governance

**VISUAL DESIGN**

Brand development and visual identity, marketing, motion graphics, web design

## Experience

**Visual Designer (work try-out) – Sievo** · Mar 2026 - Sep 2026 · Helsinki, Finland

B2B SaaS, spend analytics. Customer academy redesign and material creation with one other designer and a four-person team.

- **Redesigned the academy platform navigation and content filters** in Figma and shipped them to production with AI-assisted coding, making it **faster and easier for users to find 200+ content items** in the catalog.
- Created and documented design tokens for the global Skilljar codebase using HTML, CSS and AI-assisted tooling, standardizing layouts and accelerating content creation.
- Monitored platform engagement with Gainsight PX and ran user studies to identify pain points.
- Developed visual materials and videos for product learning documentation and training content.

**Freelance Senior Designer – Semantum** · Nov 2024 - Nov 2025 · Espoo, Finland

Engineering software company. Sole designer, working with the Business Development Director, Sales Manager and a developer.

- Researched user profiles and key decision-makers to re-brand and build the product website for Model Broker, delivered a high-fidelity and scalable prototype in Figma and collaborated with a developer to ship it. **Sales conversion on website increased by 25% since launch** (Nov 2025 to Jun 2026).
- Created marketing and branding assets (presentations, handouts, roll-ups, animated video) to align product communication across channels.

**Freelance UX/UI Designer – Compramos tu casa** · 2024 · Mexico

Mexican real estate company. Worked with the in-house designer and project manager.

- Designed a responsive, mobile-first website and a component library (tokens, buttons, cards, forms, modals, maps) for a real estate platform with six services; the team kept the core UX on the live site.
- Researched five user personas and the project manager; the findings shaped a colour-coded sell and buy journey and multi-step forms with progress indicators.
- Designed an advanced property search filter with a price histogram slider and pill selectors, and presented two wireframe directions to stakeholders before visual design.

**UX/UI Designer – Karma Pulse** · Jan 2023 - Jun 2024 · Mexico City, Mexico

Sentiment and data analytics company. Solo designer, working with product managers, front-end developers, data analysts and end users.

- Led the design of a multi-user campaign management platform for Twitch influencer campaigns, with separate admin and campaign-administrator views; **delivery-report time improved by 60%**.
- Redesigned search, filters and an interactive map for Mexico's national water data platform (518K+ records); the patterns became the template for the ENI catalogue pages.
- Built and maintained design systems and interactive Figma component libraries for developer handoff, keeping products consistent.
- Ran user research and usability testing, including feedback sessions with researchers and end users, to refine UX flows and guide iterative decisions.

**Brand and Graphic Designer – Freelance & agency work** · 2014 - 2022 · Mexico

Multidisciplinary designer for startups, SMEs and music clients, working directly with founders and clients.

- Brand, graphic and web design for SMEs, startups, LegalTech and music clients, including Brand Manager at Trato.io and Art Director at Bixdy Labs.
- Delivered naming, logos, packaging, product photography, illustration, motion graphics, social media content and websites for a large variety of SMEs and startups.

Languages

**Spanish** (native) · **English** (C2 proficient) · **Finnish** (B1 - Intermediate, good listening skills)

Education

**BSc in Digital Graphic Design** · **UNIAT University of Advanced Technologies**
Guadalajara, Jalisco, Mexico · 2010 - 2014
